Protection for the
treatment of cancer and
23 specified diseases

Cancer Insurance

Receiving a cancer diagnosis can be one of life's most frightening events. Unfortunately, statistics show you probably know someone who has been in this situation.

With Cancer insurance from Allstate Benefits, you can rest a little easier. Our coverage pays you a cash benefit to help with the costs associated with treatments, to pay for daily living expenses - and more importantly - to empower you to seek the care you need.

Here's How It Works

You choose the coverage that's right for you and your family. Our Cancer insurance pays cash benefits for cancer and 23 specified diseases to help with the cost of treatments and expenses as they happen. Benefits are paid directly to you unless otherwise assigned. With the cash benefits you can receive from this coverage, you may not need to use the funds from your Health Savings Account (HSA) for cancer or specified disease treatments and expenses.

Meeting Your Needs

- Includes coverage for cancer and 23 specified diseases
- Benefits are paid directly to you unless otherwise assigned
- Coverage available for you or your entire family
- Waiver of premium after 90 days of disability due to cancer for as long as your disability lasts (primary insured only)
- Premiums do not increase due to age
- Additional rider benefits may be added to enhance your coverage, if your employer has chosen to make them available to you

With Allstate Benefits, you can protect your finances if faced with an unexpected cancer or specified disease diagnosis. **Are you in Good Hands? You can be.**

Meet Jane

Jane is like anyone else who has been diagnosed with cancer. She is concerned about her family and how they will cope with her disease and its treatment. Most importantly, she worries about how she will pay for her treatment.

Here is what weighs heavily on her mind:

- Major medical only pays a portion of the expenses associated with my treatment
- I have co-pays I am responsible for until I meet my deductible
- If I am not working, due to treatments, I must cover my bills, rent/mortgage, groceries and my child's education
- If the right treatment is not available locally, I will have to travel to get the treatment I need

Here's how Jane's story of diagnosis and treatment turned into a happy ending, because she had supplemental Cancer Insurance to help with expenses.

CHOOSE

Jane chooses benefits to help protect herself and her family members, if diagnosed with cancer or a specified disease

USE

Jane undergoes her annual wellness test and is diagnosed for the first time with cancer.

Jane's doctor reviews the results with her and recommends pre-op testing and surgery. He provides her with the location of a hospital that specializes in her cancer. However, Jane must travel 400 miles, where she undergoes pre-op testing (medical imaging) and is admitted to the hospital for surgery.

Jane undergoes surgery, anesthesia, radiation/chemo, and is visited by a doctor during a 3-day hospital stay. And every 2 weeks she has radiation/chemotherapy at a local facility, is given anti-nausea medication, and sees her doctor during her follow-up visits.

Following each visit, Jane goes online to file her claims, is able to track each and have the benefit payments direct deposited to her bank account.

CLAIM

Jane's Cancer claim paid her cash benefits for the following:

Continuous Hospital Confinement
Non-Local Transportation
Surgery
Anesthesia
Radiation and Chemotherapy
Medical Imaging
Inpatient Drugs and Medicine
Physician Attendance
Anti-Nausea
